

BROWN BAG SEMINAR

Presentation Title:

A Large-scale Carbon Biosequestration Demonstration Project in the Sacramento-San Joaquin Delta: Carbon Capture Wetland Farming as a Means to Elevate Land Surface and Sequester Atmospheric Carbon Dioxide on Subsided Delta Islands

Date:

December 2, 2008

Time:

12:00 P.M. – 1:00 P.M.

Place:

California Department of Food and Agriculture
1220 N Street, Room 333
Sacramento, CA 95814

Dr. Roger Fujii from USGS will be our guest speaker. Also in attendance will be Brian Bergamaschi and Robin Miller, Dr. Fujii's research collaborators, to participate in the Q & A discussion. Biographies for all three guest presenters are attached.

CALL IN NUMBER: 866-812-6075
PARTICIPANT PASSCODE: 4517390

Brown Bag Seminar
December 2, 2008
1220 N Street, Room 333
Sacramento, CA 95814

Speaker Information:

Roger Fujii received his Ph.D. from the University of Wisconsin, studying soil and water chemistry. He is the Chief of Programs for the San Francisco Bay-Delta Region, CA Water Science Center, USGS, and the Supervising Scientist for the Carbon-Capture Farm Demonstration Project.

Research Collaborator Information:

Brian Bergamaschi received his Ph.D. from the University of Washington, studying biogeochemistry of aquatic systems. He is the Chief of the Organic Carbon Research Group for the CA Water Science Center, USGS, and the Chief Scientist of the Carbon-Capture Farm Demonstration Project.

Robin Miller received her M.S. from the University of California, Davis studying soil science. She has been the lead research scientist on the Twitchell Island Pilot Wetland Project and is one of the Principal Investigators on the Carbon-Capture Farm Demonstration Project.
